Pre-Requisites

- Make sure that your Windows OS is updated before you begin to install CADmep 2022, ESTmep 2022, or CAMduct 2022.
- If not already installed, CADmep 2022, ESTmep 2022, or CAMduct 2022 installs Microsoft .NET Framework 4.8, which requires one of the following Windows update levels:
  - Microsoft® Windows® 10.0.14393 Anniversary Update (version 1607 or higher)
- Regardless of Windows OS, only the 64-bit version is supported.

Installation and Configuration

Installation and Configuration

Before you install CADmep 2022, ESTmep 2022, or CAMduct 2022, close all applications.

Install or Uninstall may fail if content is on a shared network location using a mapped drive

When installing or uninstalling, the procedure may fail if content had been redirected to be on a shared network location using a mapped drive. To prevent this error, set the User Access Control in Windows Control Panel to Never Notify (Click Start button ➤ Control Panel ➤ User Accounts ➤ Change User Account Control Settings).

System Requirements

The first task you need to complete is to make sure that your computer meets the minimum system requirements. If your system does not meet these requirements, problems can occur, both within the Autodesk Fabrication products (CADmep, ESTmep, or CAMduct) and at the operating system level.

Refer to the Autodesk Fabrication [system requirements](#).

Product Removal

To uninstall Autodesk Fabrication (CADmep, ESTmep or CAMduct) 2022

To uninstall the Autodesk Fabrication products, you can use the Autodesk Uninstall Tool, or you can use the Windows Uninstall a Program feature. When using the Autodesk Uninstall Tool, only Autodesk installed products can be selected for removal. The Autodesk Uninstall Tool is typically a faster and more efficient method because all programs and components associated with the Autodesk Fabrication products, including associated Add-ins, content libraries, material libraries, and object enablers, are displayed in the dialog, and can be found with minimal or no scrolling.

When using the Windows Uninstall a Program feature, all products installed on the computer can be selected for removal, and you need to select all of the Autodesk Fabrication products, and related components, individually.

To uninstall using the Autodesk Uninstall Tool:

1. In Windows, click the Start button ➤ All Programs ➤ Autodesk ➤ Uninstall Tool.
2. On the Autodesk Uninstall Tool dialog, select the desired Autodesk Fabrication products, and related components, to uninstall.
3. Click Uninstall.

To uninstall using the Windows Uninstall a Program feature:

1. In Windows, click the Start button ➤ Control Panel ➤ Programs and Features.

2. Select the Autodesk Fabrication product you want to uninstall (Autodesk Fabrication CADmep 2022, Autodesk Fabrication ESTmep 2022, or Autodesk Fabrication CAMduct 2022).

3. Click Uninstall/Change. If the User Account Control dialog box is displayed, click Continue.

4. In the installation wizard, Maintenance Mode page, click Uninstall.

5. On the Uninstall Autodesk Fabrication product page, click Uninstall.

6. Click Finish.

To uninstall Autodesk Fabrication Metric or Imperial Content

1. In Windows, click the Start button ➤ Control Panel ➤ Programs and Features.

2. Select Autodesk Fabrication Metric (or Imperial) Content <version>.

3. Click Uninstall/Change. If the User Account Control dialog box is displayed, click Continue.

4. In the installation wizard, Maintenance Mode page, click Uninstall.

5. On the Uninstall Autodesk Fabrication Metric or Imperial Content <version> page, click Uninstall.

6. Click Finish.
