

# AI Transparency Card

---

## Autodesk Revit

### Generative Design in Revit

---

## Description

A feature that works with one or more outputs in tension to evolve a Design study by providing a series of results that are optimal but have trade-offs.

---

## Feature information

---

Feature functionality	<b>Automate, Analyze</b>
Model source	<b>Proprietary</b>
Primary technique	<b>Genetic algorithm</b>

---

## Trust ingredients

---

User directed feature	<b>Yes</b>
Personal data	<b>No</b>
Data source(s)	<b>N/A</b>
Choice format	<b>N/A</b>
Encryption at-rest	<b>N/A</b>
Encryption in-transit	<b>N/A</b>
Other safeguards	<b>N/A</b>
