

Contest-in-a-Box

Facilitator overview

The Contest-in-a-Box toolkit provides educators and mentors with a comprehensive guide to experiential learning of CAM programming via a student contest. Use the following documents and CAM files to add a contest for your class, delivering it on a timeline that works best for you or modifying it to best support your curriculum.

You've downloaded the toolkit. Now what?

This toolkit makes it easy to either manage this contest yourself or assign it to someone else. Facilitators are responsible for overseeing the Contest-in-a-Box competition but are not required to have extensive technical experience.

If your students don't already have Fusion 360 installed, they can unlock free educational access to Autodesk products and services when they confirm their eligibility.

Learn more at www.autodesk.com/education.

It's as easy as that. If you have questions about any of the assets included in this toolkit, or if you are interested in learning more about how Autodesk supports educators, please feel free to contact us at contest@autodesk.com.
