

Contest-in-a-Box

Process justification

This document will help you organize your notes and processes as preparation for the creation of your video.

Name

Date

Toolpaths and parameters

Explain the toolpaths you used and the parameters to which you set them. For example, why did you use a 2D contour and adjust the lead in and lead out?

Tool selection speeds and feeds

Describe the tools you selected to machine the part, and list the speeds and feeds you used for each of these tools.
