

As part of its ongoing efforts to modernize and improve the customer support experience, Autodesk has updated the Standard and Premium Subscription Benefits terms on this page. We have also updated the separate [Enterprise Success Terms](#) which govern the delivery of Enterprise Success services. Updates include the addition of language to encompass modern contact methods (such as chat) and access to curated technical support resources (such as articles, videos, webinars and other training or informational content), as well as the removal of outdated language or services.
