Under tight deadlines, timing is everything.

# THE AUTOCAD LT® DIFFERENCE

AutoCAD LT's modern, easy-to-use, aesthetically-pleasing interface reduces eye strain and helps buttons and text stand out better, increasing functionality and productivity. Enhanced features like this can greatly help improve your design process as a whole.

## BUILT FOR COLLABORATING

Collaboration is key to any design professional. AutoCAD 360 — a free mobile drawing and markup application — allows you to collaborate and share design ideas created in AutoCAD LT, with colleagues anywhere. Design feed works whenever, wherever you are, allowing you to flexibly view, design and comment on all your important shared files.\*\*

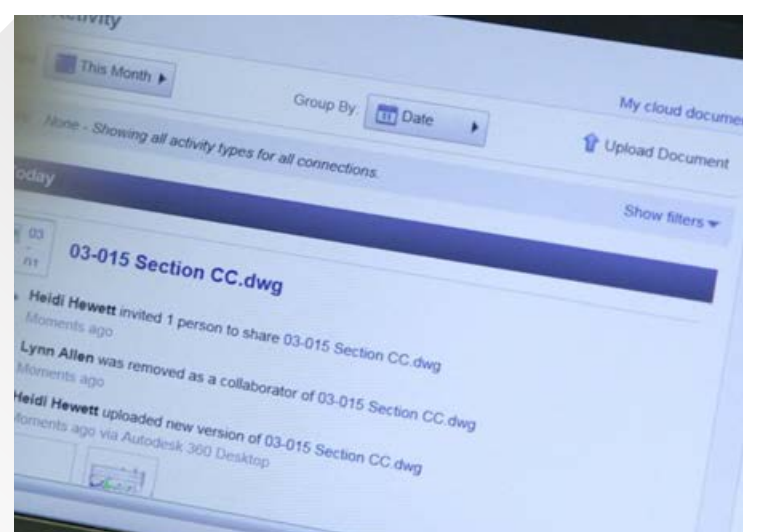

## BEST-IN-CLASS DOCUMENTATION TOOLS

Since documentation is at the heart of every one of your design projects, it deserves careful attention. Because you put so much time and resources into your designs, it's critical that you capture every detail. That's why AutoCAD has offered superior documentation tools for over 30 years. Millions of design professionals around the world trust AutoCAD and AutoCAD LT for their documentation needs.

## TrustedDWG™ TECHNOLOGY

Knowing how much time and money you've invested into your designs, why would you ever trust your documentation files to anything but the most accurate and reliable .DWG formats? You shouldn't. AutoCAD LT only uses TrustedDWG technology for storing and sharing your design and documentation files.
