

# IFC4 certification

We improved IFC export for Reference View to better support architectural and structural professionals who follow the latest building SMART standards.

## Reliable IFC export from Revit

### FEEDBACK FORUM

Customers articulated their IFC pain points and needs during previous AU research sessions.

### WHAT WE HEARD

- Customers need confidence that their data is exported accurately from Revit.
- Some governments mandate the use of certified software.
- Customers need this capability in the existing versions of Revit.

### WHAT WE BUILT

Enhancements to get Revit export into IFC and ensure compatibility with prior releases.

### WHAT'S NEXT

We are working on IFC4 certification for MEP.
