

Additional Terms for Specific Offerings

Certain Token Flex Offerings are subject to additional terms as set forth below (“Additional Terms”). To the extent any such Offering is made available to You via Your Enterprise Business Agreement (“Agreement”), You agree to the Additional Terms for that specific Offering. Capitalized terms not otherwise defined herein will have the meaning set forth in Your Agreement. For any material updates to the Additional Terms, impacted Token Flex customers will be notified via email and such Additional Terms will be updated accordingly and apply to Your Agreement.

| Offering | Additional Terms |
|---|--|
| ACC Daily | 10 Tokens in total are consumed per Authorized User per Day when an Authorized User performs a Token consumption triggering event for any of these Web Services or all of these Web Services at least once during the same Day (unless triggering events are limited to ACC Document Management (and/or BIM 360 Document Management only if relevant), in which case a total of 3 Tokens per Authorized User per Day are consumed). Use of account based or Value-Based Offerings with a Token rate based on Represented Aggregate Project Value or Annual Declared Value or any other enterprise unlimited model that are separately included in Your Token Flex Program will not trigger Token consumption for ACC Daily. |
| Assemble Web Service <i>(Standard Model)</i> | <p>If applicable, Your Agreement will indicate which pricing model applies and the number of Offices, Projects or Regions pricing is based on.</p> <p>(A) Assemble Web Service is for use by an unlimited number of Authorized Users:</p> <ul style="list-style-type: none">For Office based pricing, on any project within a 100-mile radius of the physical address where the purchase has been transacted (an “Office”).For per Project based pricing, a “Project” means up to 8 separate buildings at one single location.For Region based pricing, on any project within a 750-mile radius of the physical address where the purchase has been transacted (a “Region”). <p>(B) You must notify Autodesk if the number of Offices, Projects or Regions using the Assemble Web Service increases during the Token Flex Term, and the Monthly Token Consumption Rate will be increased accordingly on a prospective basis starting the following month. You may not decrease the number of Offices, Projects or Regions, during the Token Flex Term.</p> <p><i>Effective 6 June 2025, Assemble Web Service (standard model) is no longer available to add as a separate Offering to Your Token Flex Program.</i></p> |
| AutoCAD Web | A maximum total of 1 Token per Authorized User per Day is consumed when an Authorized User accesses AutoCAD on the web and/or AutoCAD on mobile at least once during the same Day. |
| Autodesk Build Entitlements | Authorized Users of Autodesk Build will also receive access to certain additional entitlements, where applicable at no cost, to the extent that these are set out in Your Agreement. No additional Tokens will be consumed for such access. Access is limited to the same Authorized Users of such corresponding Autodesk Build licenses. |

| | |
|--|--|
| <p>Autodesk Construction Cloud Connect (“Connect”) Platform</p> | <p>Connect is an integration platform-as-a-service used to build customized, automated workflows that connect Your existing subscriptions to certain Autodesk Web Services with one or more third party software applications (each, a “Third Party Application”). You acknowledge and agree that: (i) by using Connect, You authorize Autodesk to share Your data with Third Party Applications in connection with Connect; (ii) You are responsible for ensuring the appropriate level of access to Your data by any Third Party Application; (iii) Autodesk will have no responsibility or liability for any loss of Your data in connection with the use of Connect or for any Third Party Application or the availability thereof, and any terms and conditions, including those regarding privacy, applicable to Your use of any Third Party Application will be solely between You and the provider of such Third Party Application. You may consume up to ten million Tasks per month via Connect. You are not permitted to use Connect for workflows exclusively between Third Party Applications (i.e., each of Your workflows in Connect must include at least one Autodesk Web Service). For purposes of Connect, a “Task” is defined as a unit of work that occurs each time a workflow on Connect performs an action that requires compute resources. In the event You exceed the Task limit, without limitation to Autodesk’s other rights and remedies under Your Agreement, Autodesk reserves the right to coordinate with You to optimize workflows and Autodesk may deactivate workflows that cannot be remediated. Connect is operated by a third-party platform provider (the “Platform Provider”). In the event the Platform Provider ceases operation of Connect for any reason, Your subscription to Connect will be subject to, at Autodesk’s sole option, either early termination or transition to an alternative platform provider. No refund will be granted to You in respect of any such termination.</p> |
| <p>Autodesk Platform Services, a Web Service (Standard Model)</p> | <ul style="list-style-type: none"> (A) Access and use of the Autodesk Platform Services is subject to the then current terms and conditions located at https://www.autodesk.com/company/legal-notices-trademarks/terms-of-service-autodesk360-web-services/forge-platform-web-services-api-terms-of-service or at any successor site as designated by Autodesk and not the Terms of Use. (B) The current Token Consumption Rates for the specific APIs are charged per the applicable usage model Token consumption calculation set out at https://aps.autodesk.com/pricing or any successor site provided by Autodesk. (C) Autodesk will make available any new rates for the APIs or for new APIs or other tools within the Autodesk Platform Services as they become available at https://aps.autodesk.com/pricing or any successor site provided by Autodesk. If such rates are expressed as Flex Tokens and/or cloud credits, for purposes of Your Agreement, 1 Flex Token and/or 1 cloud credit equals 1 Token Flex Token for Autodesk Platform Services use. (D) Use of Autodesk Platform Services APIs is tracked via Tokens in the Autodesk Platform Services system and/or Autodesk Account. (E) Notwithstanding any provision to the contrary, the Token Consumption rate for Autodesk Platform Services may change during the Token Flex Term. |
| <p>Autodesk Platform Services, a Web Service (Enterprise Model)</p> | <ul style="list-style-type: none"> (A) Access and use of the Autodesk Platform Services is subject to the then current terms and conditions located at https://www.autodesk.com/company/legal-notices-trademarks/terms-of-service-autodesk360-web-services/forge-platform-web-services-api-terms-of-service or at any successor site as designated by Autodesk and not the Terms of Use. |

(B) You and Autodesk determined Your anticipated use of the Autodesk Platform Services APIs and features to estimate the number of tokens You will consume annually for Autodesk Platform Services Enterprise ("Annual Minimum"). The Annual Minimum is the minimum number of tokens to be deducted for Autodesk Platform Services each year of Your Token Flex Term.

Yearly Estimate. Your actual use of Autodesk Platform Services APIs and related features will be tracked by Autodesk using the applicable usage model consumption table available <https://aps.autodesk.com/pricing> or any successor site provided by Autodesk so that the actual token consumption of Year 1 (if above the Annual Minimum) will set Your Year 2 Estimate and the actual token consumption of Year 2 (if above the Annual Minimum) will set Your Year 3 Estimate. Once set, Your Annual Minimum will be consumed for that year (i.e. You will not be charged additional tokens in any given year for surpassing that year's estimate nor will You receive a token credit for falling below that year's estimate). If Your actual consumption is below the Annual Minimum in a particular year then You will be charged the Annual Minimum for the following year.

Year 2 Estimate. If actual token costs in Year 1 exceed the Annual Minimum, then the Year 2 Estimate will be the actual token costs of Year 1. If actual token costs in Year 1 fall below the Annual Minimum, the Year 2 Estimate will be the Annual Minimum.

Year 3 Estimate. If actual token costs in Year 2 exceed the Year 2 Estimate, then the Year 3 Estimate will be the actual token costs of Year 2. If the actual token costs in Year 2 fall below the Year 2 Estimate, the Year 3 Estimate will be the greater of, the actual token costs in Year 2 or the Annual Minimum.

| Year | Annual Minimum | Monthly Token Consumption Rate |
|----------------------|------------------|--------------------------------|
| Year 1: months 1-12 | 120,000 | 10,000 tokens |
| Year 2: months 13-24 | At least 120,000 | At least 10,000 |
| Year 3: months 25-36 | At least 120,000 | At least 10,000 |

Example 1: if Your Year 1 Estimate is 120,000 tokens and the actual token costs for Year 1 total 144,000, You will not be charged for the additional 24,000 tokens. Instead, Your Year 2 Estimate will be set at 144,000 tokens and Your Monthly Token Consumption Rate for Year 2 will be 12,000 (144,000/12).

Example 2: Your Year 2 Estimate is 144,000. At the end of Year 2, Autodesk determines that the actual costs of Your usage total 156,000 tokens. Your Year 3 Estimate will be 156,000 and Your Monthly Token Consumption Rate for Year 3 will be 13,000 (156,000/12).

Example 3: Your Year 2 Estimate is 144,000. At the end of Year 2, Autodesk determines that the actual costs of Your usage total 132,000 tokens. Your Year 3 Estimate will be 132,000, (the greater of the actual token costs in Year 2 or the Annual Minimum).

Example 4: Your Year 2 Estimate is 144,000. At the end of Year 2, Autodesk determines that the actual costs of Your usage total 90,000 tokens. Your Year 3 Estimate will be 120,000, the Annual Minimum.

Your actual use of Autodesk Platform Services APIs and related features will be tracked by Autodesk as per the applicable usage model consumption table

| | |
|---|---|
| | <p>available at https://aps.autodesk.com/pricing or any successor site provided by Autodesk.</p> <p>(C) If in the first 6 months of <u>any</u> Year, Your Autodesk Platform Services Enterprise average consumption rate is greater than 50% of the Year's Estimate, then Autodesk may increase Your Monthly Token Consumption Rate by a proportional amount for the remainder of the Year.</p> <p>(D) You or Autodesk may cancel Your use of the Autodesk Platform Services Enterprise Offering at any time upon at least 90 days written notice. Once such cancellation takes effect, Autodesk will cease charging You the Monthly Token Consumption Rate for Autodesk Platform Services Enterprise. Regardless of which party cancels, You acknowledge and agree that You will not be entitled to any form of a refund. In the event of such cancellation, You will consume Autodesk Platform Services APIs at the current Token consumption for such APIs as set forth in (1)-(4) below:</p> <p>(1) The current Token Consumption Rates for the specific APIs with the applicable usage model Token consumption calculation are set out at https://aps.autodesk.com/pricing or any successor site provided by Autodesk;</p> <p>(2) Autodesk will make available any new rates for the APIs or for new APIs or other tools within the Autodesk Platform Services as they become available at https://aps.autodesk.com/pricing or any successor site provided by Autodesk. If such rates are expressed as Flex Token and/or cloud credits, for purposes of Your Agreement, 1 Flex Token or 1 cloud credit equals 1 Token Flex Token for Autodesk Platform Services use.</p> <p>(3) Use of Autodesk Platform Services APIs is tracked via Tokens in the Autodesk Platform Services system and/or Autodesk Account;</p> <p>(4) Notwithstanding any provision to the contrary, the Token Consumption rate for Autodesk Platform Services may change during the Token Flex Term.</p> |
| <p>Autodesk Tandem Web Service</p> | <p>These Additional Terms are not applicable to Autodesk Tandem for AEC which is a separate Offering.</p> <p>Autodesk Tandem Web Service is for use by an unlimited number of Authorized Users. To determine Your applicable Token consumption, Autodesk will apply the Token Consumption Rate described in Attachment 1 of Your Agreement at the end of each calendar month. Token consumption is based on the number of Tagged Assets and the number of Streams You are using in Autodesk Tandem at the end of each calendar month, rounded up to the next highest increment. The Time Series History for Streams is three (3) years.</p> <p><i>Example 1:</i> If at the end of month 1 You have between 1 and 10,000 Tagged Assets and between 1 and 2,000 Streams, 250 Tokens will be consumed for that month.</p> <p><i>Example 2:</i> If at the end of month 2 You have between 10,001 and 20,000 Tagged Assets and between 2,001 and 4,000 Streams, 500 Tokens will be consumed for that month.</p> |
| <p>Autodesk Tandem Connect</p> | <p>Autodesk Tandem Connect is included with the Token Consumption Rate listed in Attachment 1 of Your Agreement, for use by an unlimited number of Authorized Users. Autodesk Tandem Connect includes 50 Plugins in Sandbox Pipelines. To determine Your</p> |

| | |
|--|--|
| | <p>applicable Token consumption, Autodesk will apply the Token Consumption Rate described in Attachment 1 at the end of each calendar month. Token consumption is based on the number of Plugins in Production Pipelines in Autodesk Tandem Connect at the end of each calendar month, rounded up to the next highest increment.</p> <p><i>Example 1:</i> If at the end of month 1 You have between 1 and 10 Plugins in Production Pipelines, 800 Tokens will be consumed for that month.</p> <p><i>Example 2:</i> If at the end of month 2 You have between 11 and 20 Plugins in Production Pipelines, 1600 Tokens will be consumed for that month.</p> |
| Autodesk Tandem Connect MQ | <p>Autodesk Tandem Connect MQ is included with the Token Consumption Rate listed in Attachment 1 of Your Agreement, for use by an unlimited number of Authorized Users. To determine Your applicable Token consumption, Autodesk will apply the Token Consumption Rate described in Attachment 1 of Your Agreement at the end of each calendar month. Token consumption is based on the number of MQTT Brokers at the end of each calendar month.</p> <p><i>Example 1:</i> If at the end of month 1 You have 1 MQTT Broker, 400 Tokens will be consumed for that month.</p> <p><i>Example 2:</i> If at the end of month 2 You have 2 MQTT Brokers, 800 Tokens will be consumed for that month.</p> |
| AVV Software (Arnold, VRED Core and VRED Render Note) | <p>For Your use of Arnold, VRED Core and VRED Render Node (“AVV Software”), Authorized User will also include a Machine User (“Permitted Use”), subject to the following conditions:</p> <ul style="list-style-type: none"> (A) The Machine User is instructed by an Authorized User that is not a Machine User (“Human User”), and You and the Human User shall be liable for the actions and/or omissions of the Machine User. (B) Tokens (as specified in Section 2.1 of Attachment 1 of Your Agreement) will be consumed for each Machine User accessing Arnold, VRED Render Node and VRED Core per Day, beyond any Grace Period. (C) Access by the Machine User is via the Token Flex Server System. (D) NLRM must not be compromised in any way by the Machine User accessing the AVV Software and Token consumption must be correctly reported via NLRM. (E) Each Machine User must have a unique distinct ID credential or hostname, to allow identification by You and Autodesk. (F) If Third-Party Access is included in Your Agreement, the Permitted Use is subject to the definition and restrictions associated with Third Parties in Your Agreement. <p>“Machine User” means an electronic, mechanical or robotic device (physical or virtual) owned or solely controlled by You and running an instance of an operating system and one concurrent license of the AVV Software.</p> |
| BuildingConnected BC Pro Web Service <i>(Standard Model)</i> | <p>These terms apply to the standard (minimum license commitment) model of BC Pro.</p> <ul style="list-style-type: none"> (A) You agree that the minimum number of Authorized Users for BC Pro is as listed in Attachment 1 of Your Agreement. |

| | |
|-----------------------------|--|
| | <p>(B) The minimum number of Authorized Users determines the number of Authorized Users for BC Pro for the Token Flex Term and Your initial total Monthly Token Consumption Rate for Your access to BC Pro. You acknowledge and agree, that the monthly Tokens consumed as calculated in accordance with the applicable table in Attachment 1 of Your Agreement for BC Pro will increase during the Token Flex Term, if additional Authorized Users login to BC Pro following an invitation of Your existing users to join their projects. To determine Your applicable Monthly Token Consumption Rate, Autodesk will review the total number of Authorized Users having logged-in to BC Pro during a month. If the monthly review shows that the number of Authorized Users logged-in to BC Pro increased compared to the previous month, the monthly Tokens consumed for BC Pro will be adjusted upwards to include any additional Authorized Users having logged-in during the month of review at the Monthly Token Consumption Rate per Authorized User listed in the table in Attachment 1 of Your Agreement. The adjusted total Monthly Token Consumption Rate will be applied on a prospective basis starting at the beginning of the month following the date of review. Tokens will be consumed at the then total Monthly Token Consumption Rate even when the number of Authorized Users having logged-in to BC Pro during a month is less than the then applicable number of Authorized Users for BC Pro.</p> <p>(C) Other than the commercial mechanisms stated above, BC Pro is subject solely to the operational terms of Your Agreement and the Terms of Use.</p> <p><i>Effective from 6 June 2025 BuildingConnected BC Pro Web Service (Standard Model) is no longer available to add as a separate Offering to Your Token Flex Program.</i></p> |
| Cloud Worksharing | <p>3 Tokens in total are consumed when an Authorized User performs a Token consumption triggering event for any of these Web Services or all of these Web Services at least once during the same Day. Triggering events are activities where an Authorized User using his/her Autodesk ID saves an update to a common file hosted in a project hub. Tokens are not consumed when a session is simply opened, but no “save” occurs.</p> |
| Datum360 | <p>Until Autodesk otherwise notifies You via email, (i) Support for Datum360 is Standard Support as described in the Terms of Use, and (ii) Enterprise Priority Support does not apply to Datum360.</p> |
| Flow Capture (Daily) | <p>(A) Storage and Forensic Watermarking: You will be charged the applicable Token Rate for each additional unit You begin to use.</p> <p><i>For example, if You exceed Your storage capacity at any time during Your Token Flex Term, Autodesk will “true-up” Your use by adding an additional unit(s) of storage to Your account and deducting per month the applicable Token Rate.</i></p> <p><i>For example, if You add a Unit of Forensic Watermarking with 10 months remaining on Your Token Flex Term, You will be charged an additional 80 Tokens per month (800 Tokens/10) for each month remaining of Your Token Flex Term.</i></p> <p>(B) Immediates: Use of Immediates requires a license to Qtake which must be purchased by You directly from IN2CORE, a third party. Autodesk will have no obligation or other responsibilities of any kind with respect to Your Qtake license.</p> |

| | |
|---|--|
| | <p>(C) Rooms: Each Room has a 25 concurrent participant limit.</p> |
| Flow Capture (per Authorized User) | <p>“Project” means a feature-length motion picture or television series season of Yours or Your affiliates.</p> <p>(A) Tokens will be deducted on a monthly basis as set out in the table in Attachment 1 of Your Agreement.</p> <p>(B) Access to the Flow Capture Offering, including access to all Flow Capture Add-on Products added during the Token Flex Term, will terminate upon expiration of Your Token Flex Term. For continued access to Your Project data, You will need to enter into a new Token Flex Term or purchase a separate subscription to Flow Capture.</p> <p>(C) Storage and Forensic Watermarking: You will be charged the applicable Token Rate for each additional unit you begin to use.</p> <p>(1) <i>For example, if You exceed Your storage capacity at any time during Your Token Flex Term, Autodesk will “true-up” Your use by adding an additional unit(s) of storage to Your account and deducting per month the applicable Token Rate.</i></p> <p>(2) <i>For example, if you add a Unit of Forensic Watermarking with 10 months remaining on Your Token Flex Term, You will be charged an additional 80 Tokens per month (800 Tokens/10) for each month remaining of Your Token Flex Term.</i></p> <p>(D) Immediates: Use of Immediates requires a license to Qtake which must be purchased by You directly from IN2CORE, a third party. Autodesk will have no obligation or other responsibilities of any kind with respect to Your Qtake license.</p> <p>(E) Rooms: Each Room has a 25 concurrent participant limit.</p> <p>(F) Support and Other Benefits:</p> <p>(1) <i>Support:</i> In lieu of Enterprise Priority Support, Flow Capture includes 24x7 email support for all Severity Levels, initial response time targets of 1 hour for Severity 1 cases, 2 hours for Severity 2 cases and 4 hours for Severity 3 cases. Support requests are prioritized by severity level as reasonably determined by Autodesk.</p> <p>(2) <i>Other Benefits:</i> Flow Capture also includes (1) assistance with Flow Capture deployment in Your environment, (2) access to training content for post-production teams, users, administrators and executives, and enterprise project blueprints and templates, (3) assistance and advice for integration of APIs and SDKs into Your environment and workflow streamlining, (4) assistance customizing product documentation and project reporting, (5) scheduled tutorials and product feature showcases, and (6) periodic project success reviews. These benefits may be subject to resource availability and mutually acceptable scheduling.</p> |
| Flow Capture (per Project) | <p>“Project” means a feature-length motion picture or television series season of Yours or Your affiliates.</p> <p>(A) Access to the Flow Capture Offering includes an unlimited number of Authorized Users, 3TB of storage per Project and 1 Room per Project. Projects can be used by</p> |

| | |
|---------------------------------|---|
| | <p>You at any time during Your Token Flex Term and additional Projects may be added as set out in (C) below.</p> <p>(B) Tokens will be deducted on a monthly basis by an amount equal to the Total Tokens set out in Attachment 1 of Your Agreement, divided by the number of months in the Token Flex Term. For example, if Total Tokens for all Flow Capture Offerings including Add-On Products is 289,600 at the start of the 36-month Token Flex Term then 8,044 (289,600/36) Tokens will be deducted per month over the Token Flex Term. It is Your obligation to notify Autodesk of any increases to a Project Budget that will put that Project into a higher Budget Tier. Autodesk may charge You the applicable Token Rate for the higher Project Budget Tier for the remainder of Your Token Flex Term.</p> <p>(C) You may add new Projects during the Token Flex Term via an email request to Your Autodesk sales representative. Autodesk will promptly provide access for each additional Project as requested. For each additional Project, You will be charged the specified Token Rate for the applicable Project Budget Tier ("Tier") starting in the month the Project is added. <i>For example, if You add a Project that falls in the \$10M-\$25M Tier with 20 months remaining on Your Token Flex Term, You will be charged an additional 500 Tokens per month (10,000 Tokens/20) for each month remaining of Your Token Flex Term.</i></p> <p>(D) Access to the Flow Capture Offering, including access to all Flow Capture Add-on Products added during the Token Flex Term, will terminate upon expiration of Your Token Flex Term. For continued access to Your Project data, You will need to enter into a new Token Flex Term or purchase a separate subscription to Flow Capture.</p> <p>(E) Storage and Forensic Watermarking: You will be charged the applicable Token Rate for each additional unit You begin to use.</p> <p>(1) <i>For example, if You exceed Your storage capacity at any time during Your Token Flex Term, Autodesk will "true-up" Your use by adding an additional unit(s) of storage to Your account and deducting per month the applicable Token Rate.</i></p> <p>(2) <i>For example, if You add a Unit of Forensic Watermarking with 10 months remaining on Your Token Flex Term, You will be charged an additional 80 Tokens per month (800 Tokens/10) for each month remaining of Your Token Flex Term.</i></p> <p>(F) Development and Delivery: Development and Delivery applies to any Project Budget Tier, and is limited to Projects that have not yet gone into pre-production (the development phase) and Projects that have concluded post-production (the delivery phase).</p> <p>(G) Episodic: Episodic applies to any Project Budget Tier, and is limited to ongoing television series.</p> <p>(H) Immediates: Use of Immediates requires a license to Qtake which must be purchased by You directly from IN2CORE, a third party. Autodesk will have no obligation or other responsibilities of any kind with respect to Your Qtake license.</p> <p>(I) Rooms: Each Room has a 25 concurrent participant limit.</p> |
| Flow Production Tracking | <p>A maximum total of 2 Tokens per Authorized User per Day are consumed when an Authorized User performs an event in Flow Production Tracking and/or Flow Generative Scheduling at least once during the same Day.</p> |

| | |
|--|--|
| <p>Fusion Manage; Fusion Manage Participant</p> | <p>(A) Fusion Manage Enterprise and Fusion Manage Participant Token Consumption rate only applies when an Authorized User consumes a license. A license is consumed (i) automatically upon login when an Authorized User is assigned to full access mode, or (ii) when an Authorized User in basic access mode enables a session in full access mode and the token decrement will be calculated for the period of such session. Only viewing in basic access mode does not trigger Token consumption on Fusion Manage Enterprise or Fusion Manage Participant.</p> <p>(B) A maximum total of 9 Tokens per Day are consumed when an Authorized User accesses Upchain Pro and consumes a license in Fusion Manage Enterprise at least once during the same Day.</p> <p>(C) A maximum total of 10 Tokens per Day are consumed when an Authorized User consumes a license in Fusion Manage Enterprise and Fusion Manage Participant and accesses Upchain Pro at least once during the same Day.</p> <p><i>Effective from 7 November 2025 Fusion Manage Participant is no longer available to add as an Offering to Your Token Flex Program. For Customers who do not have Fusion Manage Participant in their Agreement with effect from 7 November 2025, and are adding Fusion Manage Enterprise to their Agreement, references to Fusion Manage Participant and section (c) do not apply.</i></p> |
| <p>Innovuze</p> | <p>InfoWorks ICM Sewer and InfoWorks ICM Ultimate. This section applies if both Sewer and Ultimate versions of InfoWorks ICM are included in Attachment 1 of Your Agreement. A maximum total of 75 Tokens per Day are consumed when an Authorized User accesses both Infoworks ICM Sewer and Infoworks ICM Ultimate Offerings at least once during the same Day.</p> <p>Innovuze Info360 Asset. Innovuze Info360 Asset is included with the Token Consumption Rate listed in Attachment 1 of Your Agreement. You agree that the initial number of Innovuze Info360 Asset subscriptions is as stated in Attachment 1 of Your Agreement. The number of Innovuze Info360 Asset subscriptions cannot be decreased during the Token Flex Term.</p> <p>Innovuze Info360 Insight. Innovuze Info360 Insight is included with the Token Consumption Rate listed in Attachment 1 of Your Agreement, for use by an unlimited number of Authorized Users and up to the total number of Channels used by You as indicated in Attachment 1 of Your Agreement.</p> <p>Innovuze Info360 Plant. Innovuze Info360 Plant is included with the Token Consumption Rate listed in Attachment 1 of Your Agreement, for use by an unlimited number of Authorized Users and up to the maximum number of Megaliters per Day (MLD) / millions of gallons per day (MGD) indicated in Attachment 1 of Your Agreement.</p> <p>Innovuze (account-based model):</p> <p><i>General:</i></p> <p>(a) Access to and use of the Innovuze Offerings are provided to You on a subscription basis during the Token Flex Term as set forth in Attachment 1 of Your Agreement.</p> <p>(b) In the event that during the Token Flex Term You are acquired by a new entity or You acquire new companies or businesses either as part of Your own business or as subsidiaries, You will notify Autodesk, and Autodesk reserves the right to charge additional fees or Tokens for the Innovuze Offerings.</p> |

| | |
|---|--|
| | <p>(c) In the event Autodesk makes a new service or additional product modules available for an Innovuze Offering, Autodesk will notify You via email of the rate changes associated with use of such new service or module. You will advise Autodesk if You wish to access the additional service or module and Autodesk will provide a written updated table for Attachment of Your Agreement 1 which will replace the existing table on a prospective basis.</p> <p><i>Innovuze Standard Offerings.</i> Innovuze Standard Offerings are subject to the Terms of Use, as further described in Your Agreement.</p> <p><i>Innovuze Prior Version Offerings.</i> Innovuze Prior Version Offerings are subject to the Terms of Use, as further described in Your Agreement. With respect to Innovuze Prior Version Offerings, (i) Fixed licenses are deemed Single User Subscriptions under the Terms of Use, and (ii) Floating licenses are deemed Multi-User Subscriptions under the Terms of Use.</p> <p><i>Innovuze Legacy Offerings:</i></p> <ul style="list-style-type: none"> (a) Innovuze Legacy Offerings are subject to the applicable Innovuze terms and conditions available at https://www.innovuze.com/en-us/agreements or any successor site designated by Autodesk (the “Innovuze Terms”) and are not subject to the Terms of Use. All Innovuze Legacy Offerings are provided as subscriptions, and references in the Innovuze Terms to perpetual licenses (and any benefits specific to perpetual licenses) do not apply under Your Agreement. (b) Support for Innovuze Legacy Offerings is provided subject to the support terms set forth in the Innovuze Terms. (c) With respect to the Innovuze Legacy Offerings, in the event of a conflict between Your Agreement (excluding the Terms of Use) and the Innovuze Terms, Your Agreement will control as to its subject matter. |
| <p><u>NAVPACK Design</u></p> | <p>NAVPACK Design is accessible through Autodesk Alias Surface or Alias Concept or Alias AutoStudio, and the Daily Token Consumption Rate for Autodesk Alias Surface or Alias Concept or Alias AutoStudio will be charged in addition to the Daily Token Consumption Rate for NAVPACK Design when an Authorized User accesses NAVPACK Design at least once per Day, and such Authorized User has not incurred charges for use of Alias Surface or Alias Concept or Alias AutoStudio on the same Day.</p> |
| <p><u>PIX (per Authorized User)</u></p> | <p>“Project” means a feature-length motion picture or television series of Yours or Your affiliates.</p> <ul style="list-style-type: none"> (A) Tokens will be deducted on a monthly basis as set out in the table in Attachment 1 of Your Agreement. (B) Access to the PIX Offering, including access to PIX Add-on Products added during the Token Flex Term, will terminate upon expiration of Your Token Flex Term. For continued access to Your Project data, You will need to enter into a new Token Flex Term or purchase a separate subscription to PIX. (C) Additional Storage: You will be charged the applicable Token Rate for each additional unit You begin to use. <i>For example, if You exceed Your storage capacity at any time during Your Token Flex Term, Autodesk will “true-up” Your use by adding an additional unit(s) of storage to Your account and deducting per month the applicable Token Rate.</i> |

| | |
|--------------------------|---|
| | <p>(D) Support and Other Benefits:</p> <p>(1) <i>Support:</i> In lieu of Enterprise Priority Support, PIX includes 24x7 email support for all Severity Levels, and initial response time targets of 1 hour for Severity 1 cases, 2 hours for Severity 2 cases and 4 hours for Severity 3 cases. Support requests are prioritized by severity level as reasonably determined by Autodesk.</p> <p>(2) <i>Other Benefits:</i> PIX also includes (1) assistance troubleshooting hardware and software environment issues, (2) access to online product and support guides, (3) assistance with SSO setup, (4) assistance with PIX deployment in Your environment, (5) access to training content for post-production teams, users, administrators and executives, and enterprise project blueprints and templates, (6) assistance and advice for integration of APIs and SDKs into Your environment, and workflow streamlining, (7) assistance customizing product documentation and project reporting, and (8) scheduled tutorials and product feature showcases, and periodic project success reviews. These benefits may be subject to resource availability and mutually acceptable scheduling.</p> |
| PIX (per Project) | <p>“Project” means a feature-length motion picture or television series season of Yours or Your affiliates.</p> <p>(A) Access to the PIX (per Project) Offering includes an unlimited number of Authorized Users per Project, and 3TB of storage per Project. Projects can be used by You at any time during Your Token Flex Term and additional Projects may be added as set out in (C) below.</p> <p>(B) Tokens will be deducted on a monthly basis by an amount equal to the Total Tokens set out in the table in Attachment 1 of Your Agreement, divided by the number of months in the Token Flex Term. <i>For example, if Total Tokens for all PIX Offerings including Add-On Products is 100,000 Tokens at the start of the 36-month Token Flex Term then 2,778 (100,000/36) Tokens will be deducted per month over the Token Flex Term.</i> It is Your obligation to notify Autodesk of any increases to a Project Budget that will put that Project into a higher Budget Tier. Autodesk may charge You the applicable Token Rate for the higher Project Budget Tier for the remainder of your Token Flex Term.</p> <p>(C) You may add new Projects during the Token Flex Term via an email request to Your Autodesk sales representative. Autodesk will promptly provide access for each additional Project as requested. For each additional Project, You will be charged the specified Token Rate for the applicable Project Budget Tier (“Tier”) starting in the month the Project is added. <i>For example, if you add a Project that falls in the \$10M-\$25M Tier with 20 months remaining on Your Token Flex Term, You will be charged an additional 500 Tokens per month (10,000 Tokens/20) for each month remaining of Your Token Flex Term.</i></p> <p>(D) Access to the PIX Offering, including access to PIX Add-on Products added during the Token Flex Term, will terminate upon expiration of Your Token Flex Term. For continued access to Your Project data, You will need to enter into a new Token Flex Term or purchase a separate subscription to PIX.</p> <p>(E) Development and Delivery: Development and Delivery applies to any Project Budget Tier, and is limited to Projects that have not yet gone into pre-production</p> |

| | |
|-------------------------------|---|
| | <p>(the development phase) and Projects that have concluded post-production (the delivery phase).</p> <p>(F) Episodic: Episodic applies to any Project Budget Tier, and is limited to ongoing television series.</p> <p>(G) Additional Storage: You will be charged the applicable Token Rate for each additional unit You begin to use. <i>For example, if You exceed Your storage capacity at any time during Your Token Flex Term, Autodesk will “true-up” Your use by adding an additional unit(s) of storage to Your account and deducting per month the applicable Token Rate.</i></p> <p>(H) Support and Other Benefits:</p> <p>(1) <i>Support:</i> In lieu of Enterprise Priority Support, PIX includes 24x7 email support for all Severity Levels, and initial response time targets of 1 hour for Severity 1 cases, 2 hours for Severity 2 cases and 4 hours for Severity 3 cases. Support requests are prioritized by severity level as reasonably determined by Autodesk.</p> <p>(2) <i>Other Benefits:</i> PIX also includes (1) assistance troubleshooting hardware and software environment issues, (2) access to online product and support guides, (3) assistance with SSO setup, (4) assistance with PIX deployment in Your environment, (5) access to training content for post-production teams, users, administrators and executives, and enterprise project blueprints and templates, (6) assistance and advice for integration of APIs and SDKs into Your environment, and workflow streamlining, (7) assistance customizing product documentation and project reporting, and (8) scheduled tutorials and product feature showcases, and periodic project success reviews. These benefits may be subject to resource availability and mutually acceptable scheduling.</p> |
| Preconstruction Bundle | <p>The following terms apply to specific Web Services included in the Preconstruction Bundle, as identified below.</p> <p><i>TradeTapp Web Service.</i> Data input services are not included with TradeTapp.</p> |
| Prospect | <p>You agree that the initial number of Prospect subscriptions is as stated in Attachment 1 of Your Agreement. You may not decrease the number of Prospect subscriptions during the Token Flex Term. <i>Note: Effective January 31, 2025, Prospect is no longer available to add as a separate Offering to Your Token Flex Program.</i></p> |
| The Wild | <p>You agree that the initial number of The Wild subscriptions is as stated in Attachment 1 of Your Agreement. You may not decrease the number of The Wild subscriptions during the Token Flex Term. <i>Note: Effective January 31, 2025, The Wild is no longer available to add as a separate Offering to Your Token Flex Program.</i></p> |

Upchain Web Services

For permission management only, You may assign Authorized Users to Upchain Participant and/or Upchain Team, and the Upchain Pro Token Consumption Rate applies when an Authorized User accesses Upchain Participant and/or Upchain Team.
