

Autodesk Exchange for Autodesk® Revit®

# Publishing Revit 2013 Apps

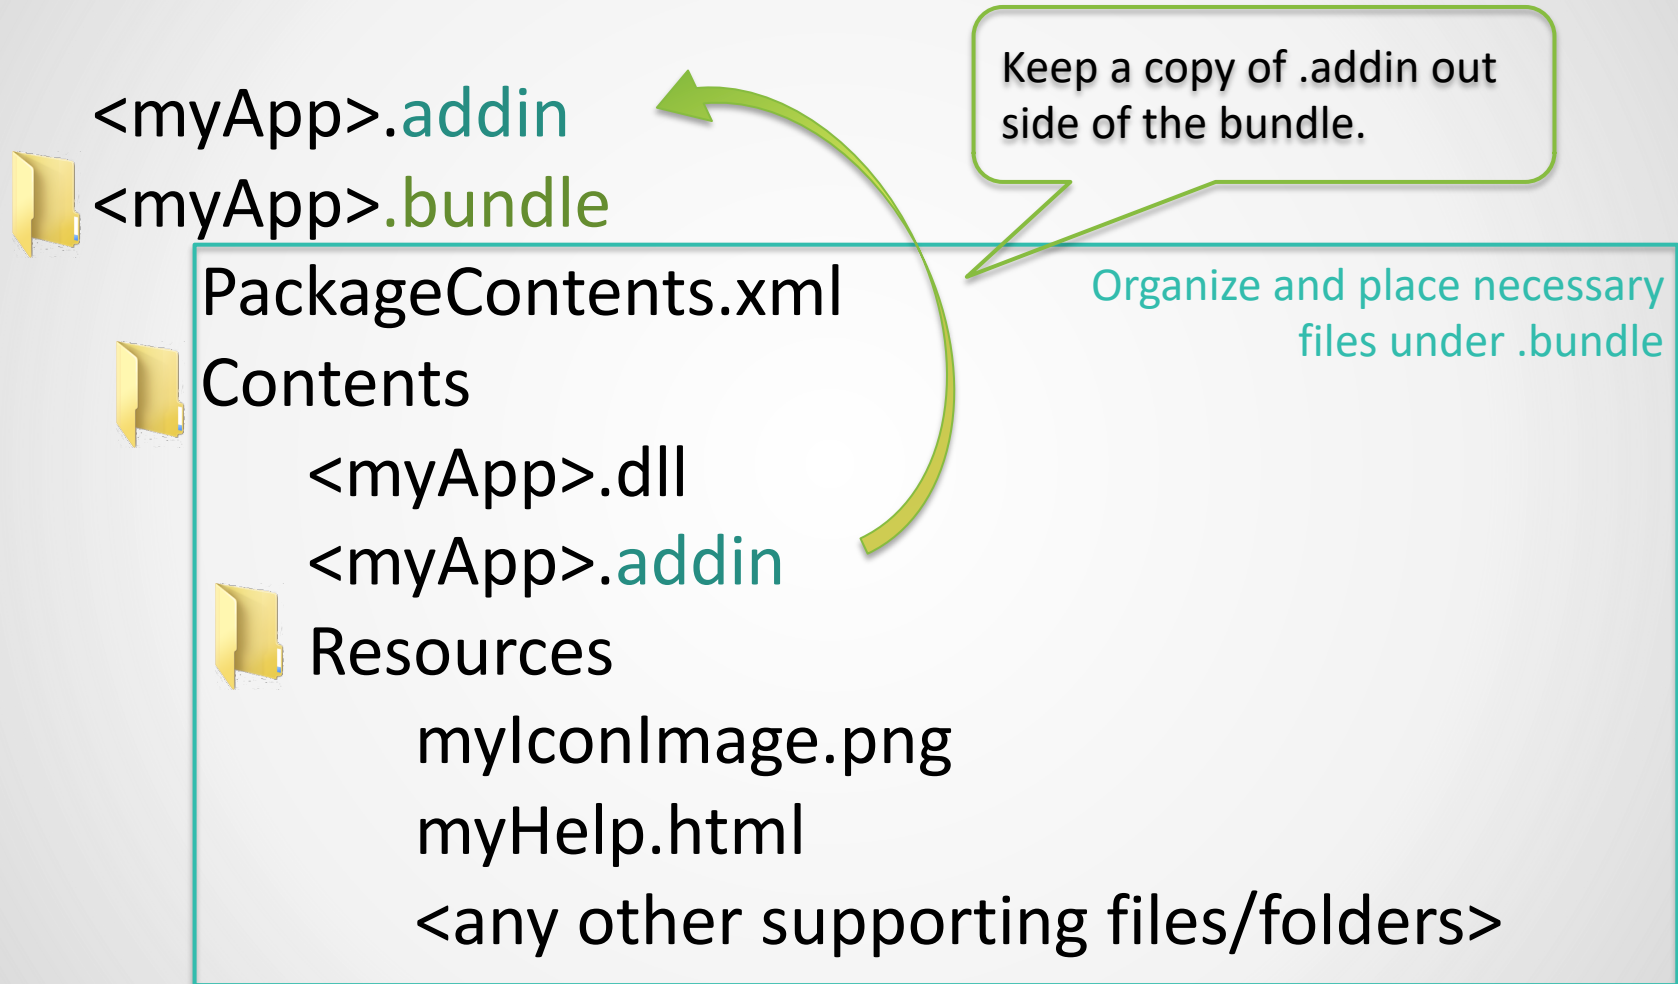

# Publishing Apps for Revit 2013

- Revit 2013 does not support the common store location or PackageContents.xml (implemented in Revit 2014 and above)
- As a workaround for 2013, the installer will place a copy of bundle under the following locations:
  - %ProgramData%\Autodesk\Revit\Addins\2013\ (All user, default)
  - %AppData%\Autodesk\Revit\Addins\2013\ (Per user)
- Place .addin and .bundle at the same level with the same name:
  - <MyApp>.addin
  - <MyApp>.bundle
  - Use relative path in .addin:  
`<Assembly>.\<MyApp>.bundle\Contents\MyApp.dll</Assembly>`

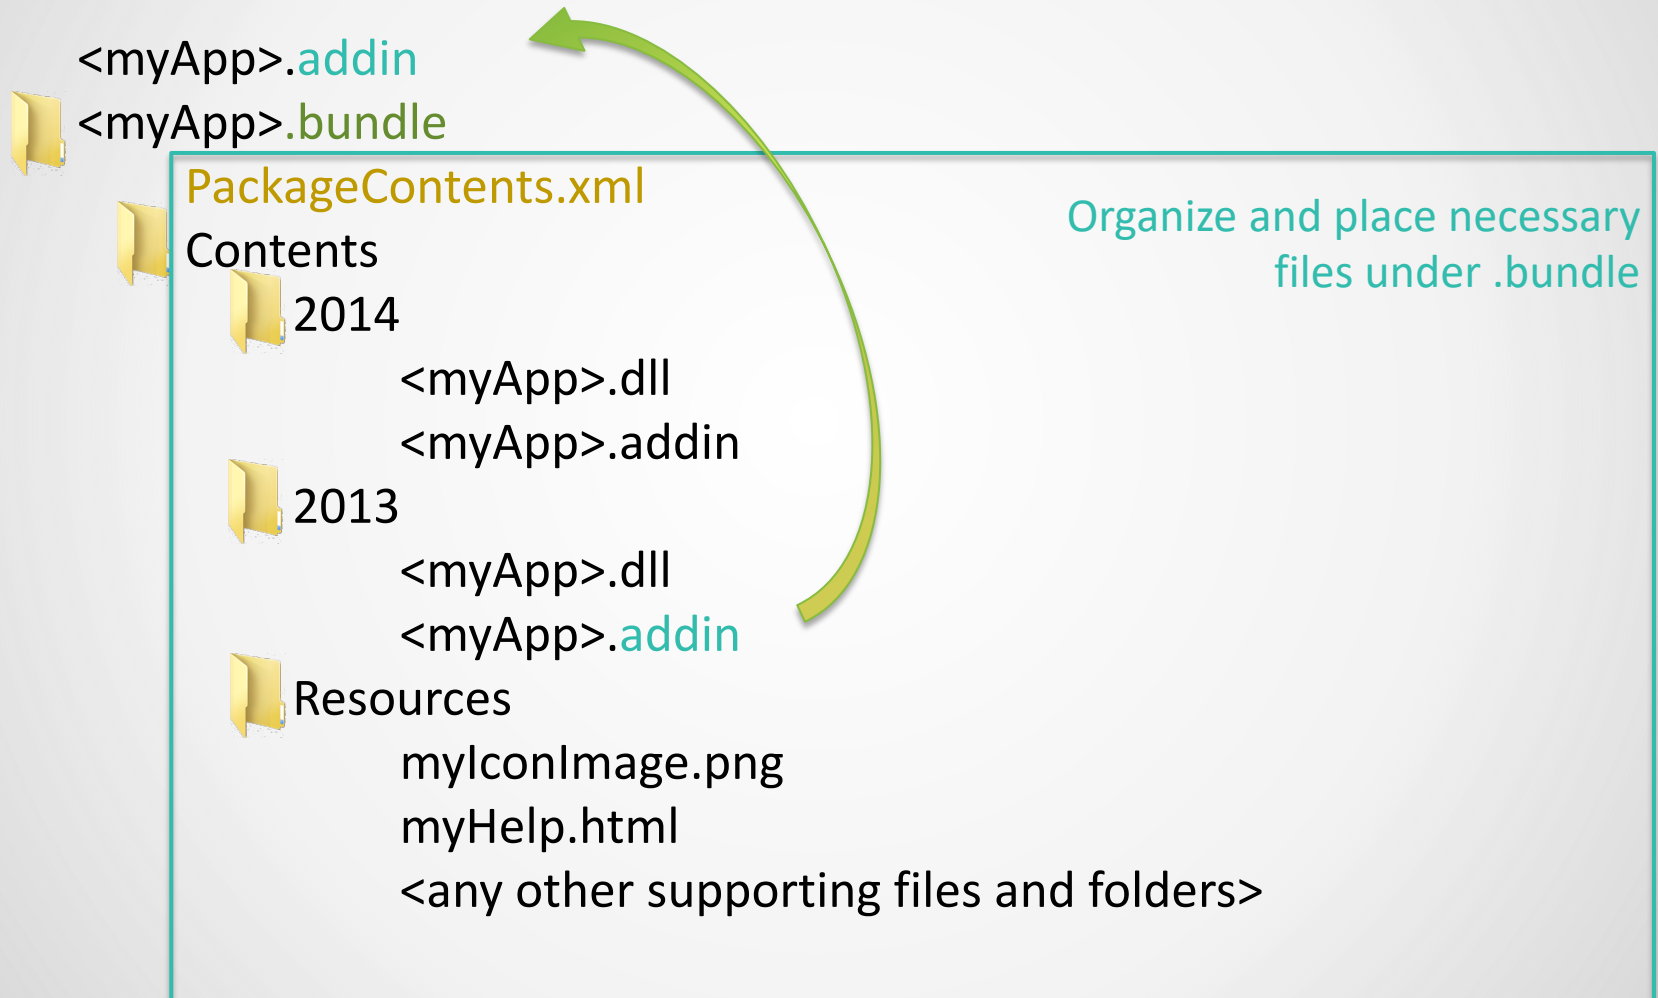

# Bundle Folder Structure for 2013

## (1) Typical Single App

# Bundle Folder Structure for 2013

## (2) App Supporting Multiple Versions
