

AI Transparency Card

Recap Pro AI Pre-Classify

Description

The solution automates the classification of mesh segments into a predefined list of categories, produces classified outputs that support downstream BIM and collaboration workflows, including modeling, analysis, inspection, and renovation planning.

Feature information

Feature functionality	Automate
Model source	Combination
Primary technique	Classification

Trust ingredients

User directed feature	Yes
Personal data	No
Data source(s)	Open-source
Choice format	N/A
Encryption at-rest	Yes
Encryption in-transit	Yes
Other safeguards	N/A
