

2022 Winter Workshop | December 14 & 15

BIM 360 to ACC Transition

In this deck

- Product Transition Map
- Platform Comparison
- Product Licensing
- Adding Users
- Activate Services / Modules
- Module Settings
- Autodesk Learning Resources
- Customer Stories
- Classroom Ready Exercises

Product Transition Map

Platform Comparison

BIM 360

- Previous Version
- Users only need access to project
- Individual project invites, role assignment, & module access
- Modules turned on through Project Admin module under services tab
- All settings including module & member management done in Project Admin module

Autodesk Construction Cloud

- New Version
 - PlanGrid & BIM 360 merged into one unified platform
- Requires all users to have a product license & access to a project
- Bulk project invites, role assignment, & module access
- Modules turned on through Members tab under a Project Admin's user profile
- Manage users & settings from individual modules

Platform Comparison cont.

BIM 360

- Modules:
 - Document Management
 - Field Management
 - Assets
 - Project Management
 - Cost Management
 - Model Coordination
 - Design Collaboration
 - Insight
- Mobile: BIM 360

Autodesk Construction Cloud

- Simplified Modules:
 - Docs
 - Takeoff
 - Build
 - Cost Management
 - Model Coordination
 - Design Collaboration
 - Insight
- Additional modules & features
 - Autodesk Takeoff
- Mobile: PlanGrid Build App

Product Licensing

Required Product licenses for users

ACC Module	License Needed
Docs	Included with all Licenses (Docs, Takeoff, Build, BIM Collaborate, or BIM Collaborate Pro)
Takeoff	Takeoff
Build	Build
Cost	Build
Model Coordination	BIM Collaborate or BIM Collaborate Pro
Design Collaboration	BIM Collaborate Pro
Revit Cloud Worksharing	BIM Collaborate Pro

Note: Unlike BIM 360, all users will need a license to access & use ACC.

BIM Collaborate
Includes [7 items](#)

Assigned groups: BIM Collaborate can't be assigned to groups.

499 seats available | 500 seats total ⓘ

Assign users

Assigned users (1)

Assign users

Assign Import to assign

You can assign 499 more users.

Assign by uploading a CSV file with user information.

Upload CSV file

Import instructions
Create a comma-separated file (CSV) listing the users to import and assign.

- Each entry should be on its own line and follow this format:

	A	B	C
1	First name	Last name	E-mail address
2	John	Smith	jsmith@email.com

- Users that already have access to this product will not be assigned another seat.

Cancel

Adding Users

BIM 360

The screenshot shows the 'Project Admin' interface with the 'MEMBERS' tab selected. The 'Project Members' section displays a list of members with columns for Name, Status, Email, Company, Role, and Project Admin. A red circle 1 highlights the 'Project Admin' dropdown in the top navigation bar. A red circle 2 highlights the 'MEMBERS' tab. A red circle 3 highlights the 'Add' button. A red circle 4 highlights the 'Add' button in the top right corner. A red circle 5 highlights the 'Add' button in the bottom right corner.

The screenshot shows the 'Add Project Members' dialog. The 'Enter Names or Email Addresses' field is highlighted with a red circle 4. The 'Select' button is highlighted with a red circle 5. The 'Add to Project' button is highlighted with a red circle 8. The 'Roles' column is highlighted with a red circle 6. The 'Project Admin' column is highlighted with a red circle 7.

ACC

The screenshot shows the 'Add project members' dialog. The 'Docs' tab is highlighted with a red circle 1. The 'Members' tab is highlighted with a red circle 2. The 'Add members' button is highlighted with a red circle 3. The 'Enter or copy and paste email addresses' field is highlighted with a red circle 4. The 'Company' dropdown is highlighted with a red circle 5. The 'Role' dropdown is highlighted with a red circle 6. The 'Project member' radio button is highlighted with a red circle 7. The 'Project administrator' radio button is highlighted with a red circle 8. The 'Invite to these products' section is highlighted with a red circle 9. The 'Docs (current product)' checkbox is highlighted with a red circle 10. The 'Build' checkbox is highlighted with a red circle 11. The 'Cost Management' checkbox is highlighted with a red circle 12. The 'Insight (Included)' checkbox is highlighted with a red circle 13. The 'Cancel' button is highlighted with a red circle 14. The 'Add' button is highlighted with a red circle 15.

Autodesk Learning Resources

Learning Center

BIM 360

Continue to access all on-demand BIM 360 courses, including BIM 360 Design and Classic Product Courses.

Document Management

Manage your projects in one digital library, at your desk or on your mobile.

FREE

Approvals Workflow

Facilitate, control, and automate the review, distribution and approval of project drawings, models, and other documents.

FREE

Quality Management

Learn how to standardize your quality inspections.

FREE

Coordination

Display a single, unified view of your latest coordination models, and review clashes that are automatically located in those models.

FREE

RFI Workflow

Create, manage, distribute and approve RFIs with project controls and activity tracking.

FREE

Submittals Workflow

Learn how to manage the submittal item and submittal package creation, review and approval workflows.

FREE

Cost Management

With Cost Management you can manage the cost and budget changes to your project.

FREE

BIM 360 Design

Courses that cover BIM 360, Revit, Civil 3D, and Plant 3D workflows as part of BIM 360 Design

Courses

Dive in to learn about Autodesk's construction products and how the Autodesk Construction Cloud can connect workflows, teams, and data at every stage of construction.

Learning Paths

Learn about a specific Autodesk Construction Cloud product by diving into the appropriate learning path below.

Autodesk Build

Explore these Autodesk Build courses to learn how to get started, set up project templates, track issues, and more. Includes Cost Management courses.

Autodesk Docs

Learn how to organize, distribute, and share drawings, models, and documents across the project lifecycle with a single document management platform.

Autodesk Takeoff

Learn how to generate accurate estimates in Autodesk Takeoff from 2D sheets and 3D models.

Autodesk BIM Collaborate

Explore these courses to learn how to use Design Collaboration and Model Coordination.
