

Autodesk® Accessibility Conformance Report

Revised Section 508 Edition

(Based on VPAT® Version 2.4)

Name of Product/Version: Autodesk® Revit® LT™ 2023

Report Date: March 9, 2022

Product Description: Simplified 3D BIM tool for producing 3D architectural designs and documentation. Get Revit LT™ and AutoCAD LT® together in the suite

Contact Information: business.services@autodesk.com (415-507-5000)

Notes: VPAT assessment for Revit LT Help Documentation is contained within a separate set of tables.

Evaluation Methods Used: Testing is based on general product knowledge

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

Revised Section 508 Report

Notes: A WCAG 2.0 Report is prepared for Chapter 5: Software and for Chapter 6: Support Documentation and Services. Each WCAG report is within the respective sections below.

Chapter 3: [Functional Performance Criteria \(FPC\)](#)

Notes: Not Applicable

Chapter 4: [Hardware](#)

Notes: Not Applicable

Chapter 5: [Software](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.0 AA	See WCAG 2.0 section	Refer to 501.1 Table 1 and 501.1 Table 2
502 Interoperability with Assistive Technology	Heading cell – no response required	Heading cell – no response required
502.2.1 User Control of Accessibility Features	Not Applicable	Revit LT is not a platform software
502.2.2 No Disruption of Accessibility Features	Not Applicable	Revit LT is not a platform software

502.3 Accessibility Services	Heading cell – no response required	Heading cell – no response required
502.3.1 Object Information	Not Applicable	Revit LT is not a platform software
502.3.2 Modification of Object Information	Not Applicable	Revit LT is not a platform software
502.3.3 Row, Column, and Headers	Not Applicable	Revit LT is not a platform software
502.3.4 Values	Not Applicable	Revit LT is not a platform software
502.3.5 Modification of Values	Not Applicable	Revit LT is not a platform software
502.3.6 Label Relationships	Not Applicable	Revit LT is not a platform software
502.3.7 Hierarchical Relationships	Not Applicable	Revit LT is not a platform software
502.3.8 Text	Not Applicable	Revit LT is not a platform software
502.3.9 Modification of Text	Not Applicable	Revit LT is not a platform software
502.3.10 List of Actions	Not Applicable	Revit LT is not a platform software
502.3.11 Actions on Objects	Not Applicable	Revit LT is not a platform software
502.3.12 Focus Cursor	Not Applicable	Revit LT is not a platform software
502.3.13 Modification of Focus Cursor	Not Applicable	Revit LT is not a platform software
502.3.14 Event Notification	Not Applicable	Revit LT is not a platform software
502.4 Platform Accessibility Features	Not Applicable	Revit LT is not a platform software
503 Applications	Heading cell – no response required	Heading cell – no response required
503.2 User Preferences	Partially Supports	Most UI elements participate in setting changes from the platform operating system.
503.3 Alternative User Interfaces	Not Applicable	
503.4 User Controls for Captions and Audio Description	Heading cell – no response required	Heading cell – no response required
503.4.1 Caption Controls	Not Applicable	
503.4.2 Audio Description Controls	Not Applicable	
504 Authoring Tools	Heading cell – no response required	Heading cell – no response required
504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)	See WCAG 2.0 section	See information in WCAG 2.0 section
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion		
504.2.2 PDF Export		

504.3 Prompts		
504.4 Templates		

WCAG 2.0 Report

Tables 1 and 2 also document conformance with Revised Section 508:

- Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

501.1 Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Partially Supports	Ribbon buttons have text labels. Controls and Revit LT elements have tool tips.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Supports	There are video-only cases in Revit LT, not Audio-only. In those cases, they are used as part of the expanded tool tip system for Ribbon elements. Each case also has a text description and they are always together to make it clear that they go together.
1.2.2 Captions (Prerecorded) (Level A)	Not Applicable	There is no known prerecorded audio content.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Not Applicable	Videos are positioned with descriptive text alternatives.

Criteria	Conformance Level	Remarks and Explanations
1.3.1 Info and Relationships (Level A)	Partially Supports	Most dialogs do not use visual cues to relate information. There are some cases in which positional visual cues are used, but text labels are provided for the user, e.g. prefix, suffix, above, below. Tables are often used for user input. Colors, text size, and position are rarely used in the User Interface. Sound is not used except for error prompts.
1.3.2 Meaningful Sequence (Level A)	Not Applicable	Text content created by the user as part of the Revit model is generally placed near relevant elements as part of the annotation process for project plan work and notes. The sequence of text with respect to other text is not meaningful in itself but is generally meaningful with respect to nearby objects. This requirement does not apply for this product.
1.3.3 Sensory Characteristics (Level A)	Supports	Buttons and controls should not rely solely on shape, size, visual location, orientation, or sound. Buttons, controls, and objects created in Revit LT have tool tips to assist the user. These tool tips can be read by screen reader.
1.4.1 Use of Color (Level A)	Partially Supports	In most cases, Revit LT does not depend on color as the only visual means of conveying information, however, there are some cases in which color is the only method
1.4.2 Audio Control (Level A)	Not Applicable	Audio is not used in Revit LT
2.1.1 Keyboard (Level A)	Does not Support	Placement of elements in the model depends on using the mouse. It may be possible to design a plugin to assist in this way, but for native Revit LT, it is not possible

Criteria	Conformance Level	Remarks and Explanations
2.1.2 No Keyboard Trap (Level A)	Partially Supports	Revit LT makes use of standard Microsoft key tip accelerators to navigate the Ribbon. Dialogs make use of tab order to navigate the dialog as well as alt+key accelerators. Revit LT also supports the creation of custom keyboard shortcuts to enter commands. There may be some areas that do not support traditional keyboard access
2.2.1 Timing Adjustable (Level A)	Not Applicable	There are no known cases in which Revit LT will change context unexpectedly based on a time limit
2.2.2 Pause, Stop, Hide (Level A)	Not Applicable	There are no known places in Revit LT in which moving, blinking, or scrolling is started automatically. Auto-updating does occur for background processes, but it is part of an activity that is essential to the software
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	There are no known places within Revit LT that flash consecutively 3 times within a 1 second period
2.4.1 Bypass Blocks (Level A)	Not Applicable	Excluded by E207.2
2.4.2 Page Titled (Level A)	Supports	Views are labeled within the User Interface with tabs to help orient the user without needing to interpret content. They are also highlighted in the Project Browser and show in the window title bar
2.4.3 Focus Order (Level A)	Supports	Dialogs support tab order as well as the properties palette
2.4.4 Link Purpose (In Context) (Level A)	Supports	The software supports using standard architectural symbols as links to navigate the model in context. The symbols can be customized to meet the standard of the user. Identification within the symbol, using letters and numbers, will associate the link with a sheet on which it can be found. Though this may be a bit different than hyperlinks on a website, the general intent is the same. The symbol represents what view will be opened when used

Criteria	Conformance Level	Remarks and Explanations
3.1.1 Language of Page (Level A)	Partially Supports	The installed Revit LT language can be detected in a text file which could be helpful for text elements of the User Interface. However, Revit LT does not support being able to set a language for a Revit LT file, so file content would not be supported if it is created in a language that is different than the installed language
3.2.1 On Focus (Level A)	Supports	
3.2.2 On Input (Level A)	Supports	Revit LT will not automatically change context automatically by default, except in a few instances that can be modified in the user settings to make property changes only after using the Apply button
3.3.1 Error Identification (Level A)	Supports	
3.3.2 Labels or Instructions (Level A)	Supports	
4.1.1 Parsing (Level A)	Not Applicable	Content is not implemented using markup languages, so this item does not apply
4.1.2 Name, Role, Value (Level A)	Partially Supports	Revit LT does not have an API to access this information programmatically. However, Revit 2023 does. Please refer to the Revit 2023 VPAT document.

501.1 Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not Applicable	No live audio content in product
1.2.5 Audio Description (Prerecorded) (Level AA)	Not Applicable	No videos with audio content in product
1.4.3 Contrast (Minimum) (Level AA)	Partially Supports	Nearly all text within the user interface has appropriate minimum contrast. Disabled buttons have insufficient minimum contrast

Criteria	Conformance Level	Remarks and Explanations
1.4.4 Resize text (Level AA)	Partially Supports	Although text in primary UI elements resize appropriately, some text is not visible when resized, some options and controls become unavailable due to the UI being too big to see all available options. Some text elements do not resize at all.
1.4.5 Images of Text (Level AA)	Supports	There are no known cases of images with text
2.4.5 Multiple Ways (Level AA)	Not Applicable	Excluded by E207.2
2.4.6 Headings and Labels (Level AA)	Supports	Dialogs group similar information together and have short descriptive labels for the field name. A concise group name is sometimes used to further help the user understand the organization of information. The properties palette uses header-like UI to identify similar information
2.4.7 Focus Visible (Level AA)	Supports	
3.1.2 Language of Parts (Level AA)	Does not Support	The language of content, e.g. text notes, tags, etc cannot be programmatically determined
3.2.3 Consistent Navigation (Level AA)	Not Applicable	Excluded by E207.2
3.2.4 Consistent Identification (Level AA)	Not Applicable	Excluded by E207.2
3.3.3 Error Suggestion (Level AA)	Supports	
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Not Applicable	

501.1 Table 3: Success Criteria, Level AAA

Notes: Not Applicable

Chapter 6: [Support Documentation and Services](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
601.1 Scope	Heading cell – no response required	Heading cell – no response required
602 Support Documentation	Heading cell – no response required	Heading cell – no response required
602.2 Accessibility and Compatibility Features	Partially Supports	There are several features that support accessibility; however, they are not specifically documented as accessibility features. Examples are KeyTips, Tooltips, Keyboard Shortcuts, Keyboard Accelerators, and Quick Access Toolbar.
602.3 Electronic Support Documentation	See WCAG 2.0 section	Refer to 602.3 Table 1 and 602.3 Table 2
602.4 Alternate Formats for Non-Electronic Support Documentation	Not Applicable	Autodesk does not provide Non-Electronic Support Documentation for Revit LT.
603 Support Services	Heading cell – no response required	Heading cell – no response required
603.2 Information on Accessibility and Compatibility Features		
603.3 Accommodation of Communication Needs		

WCAG 2.0 Report

Tables 1 and 2 also document conformance with Revised Section 508:

- Chapter 6 – 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

602.3 Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Partially Supports	There are some instances in which a graphic is used to help support a text-based description of a concept. Graphics are not generally used as the primary method to communicate concepts, however, there may be instances in which a graphic does not have a text alternative.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Supports	There are no known cases of audio-only and few cases of video-only. The video-only case had a text equivalent describing the action in the video
1.2.2 Captions (Prerecorded) (Level A)	Partially Supports	Newly created videos have captions (for features created in release 2019 and later), however, older videos do not yet have captions
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Partially Supports	The videos are narrated in a way that explains in general terms how to complete the task which is what the video is demonstrating.
1.3.1 Info and Relationships (Level A)	Supports	
1.3.2 Meaningful Sequence (Level A)	Supports	Page content is in a linear format progressing from top to bottom
1.3.3 Sensory Characteristics (Level A)	Supports	
1.4.1 Use of Color (Level A)	Supports	
1.4.2 Audio Control (Level A)	Supports	
2.1.1 Keyboard (Level A)	Partially Supports	The Share button used to share the content of the help topic cannot be accessed from the keyboard. Tools such as MouseKeys could be used to access it.
2.1.2 No Keyboard Trap (Level A)	Supports	
2.2.1 Timing Adjustable (Level A)	Not Applicable	There are no time limits in Help documentation

Criteria	Conformance Level	Remarks and Explanations
2.2.2 Pause, Stop, Hide (Level A)	Partially Supports	Nearly all videos do not start automatically, but there are some animated gifs that help to graphically describe certain topics start automatically with no way to pause, stop, or hide them
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	There are no known cases
2.4.1 Bypass Blocks (Level A)	Partially Supports	The navigation block is repeated on each page. It will collapse when the browser window is made smaller. Once collapsed, it can be expanded, but not while the window width is large
2.4.2 Page Titled (Level A)	Supports	
2.4.3 Focus Order (Level A)	Supports	Hyperlinks are one of the only items that can have focus within help documentation and increment sequentially in a predictable manner
2.4.4 Link Purpose (In Context) (Level A)	Supports	
3.1.1 Language of Page (Level A)	Supports	
3.2.1 On Focus (Level A)	Supports	
3.2.2 On Input (Level A)	Supports	
3.3.1 Error Identification (Level A)	Supports	The search field will report no results if the keyword is not found
3.3.2 Labels or Instructions (Level A)	Supports	The search field is the only input field and is appropriately labeled
4.1.1 Parsing (Level A)	Supports	
4.1.2 Name, Role, Value (Level A)	Supports	

602.3 Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Supports	
1.2.5 Audio Description (Prerecorded) (Level AA)	Partially Supports	The videos are narrated in a way that explains in general terms how to complete the task which is what the video is demonstrating but does not include every action or mouse click that is represented in the video.
1.4.3 Contrast (Minimum) (Level AA)	Supports	The minimum contrast requirement can be achieved by using a high contrast theme within the operating system and/or using a browser plug-in
1.4.4 Resize text (Level AA)	Supports	
1.4.5 Images of Text (Level AA)	Supports	
2.4.5 Multiple Ways (Level AA)	Supports	Help documentation can be navigated using the navigation pane, search box, and hyperlinks within pages. Pages also have links to parent topic pages, related tasks, and related topics pages
2.4.6 Headings and Labels (Level AA)	Supports	
2.4.7 Focus Visible (Level AA)	Supports	
3.1.2 Language of Parts (Level AA)	Supports	
3.2.3 Consistent Navigation (Level AA)	Supports	
3.2.4 Consistent Identification (Level AA)	Supports	
3.3.3 Error Suggestion (Level AA)	Not Applicable	
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Not Applicable	

602.3 Table 3: Success Criteria, Level AAA

Notes: Not Applicable
