

# AI Transparency Card

---

## Flow Studio

### AI Static Motion Capture

---

## Description

User can capture detailed actor movement data directly from any frame within a fixed-camera footage of an actor on flat ground, without the need to use Motion Capture (MoCap) suits, markers, or special hardware.

---

## Feature information

---

Feature functionality	<b>Augment</b>
Model source	<b>Open-source, Licensed, Proprietary</b>
Primary technique	<b>Convolutional Neural Networks</b>

---

## Trust ingredients

User directed feature	<b>Yes</b>
Personal data	<b>No</b>
Data source(s)	<b>Mixed</b> (e.g. Open-source, synthetic, commercial, internally generated)
Choice format	<b>N/A</b>
Encryption at-rest	<b>Yes</b>
Encryption in-transit	<b>Yes</b>
Other safeguards	<b>N/A</b>
