Flow Studio

Clean Plate

Description

User can upload footage that includes an actor and create a clean plate, where the actor has been removed from the footage by inpainting (i.e., using techniques like rotoscoping to seamlessly fill in the rotoscoped actor).

Feature information

Feature functionality	Augment
Model source	Combination
Primary technique	Feed Forward Neural Network

Trust ingredients

User directed feature	Yes
Personal data	No
Data source(s)	Mixed (e.g. Open-source, synthetic, commercial, internally generated)
Choice format	N/A
Encryption at-rest	Yes
Encryption in-transit	Yes
Other safeguards	N/A
