

AI Transparency Card

Flow Studio

Image-to-3D

Description

After uploading an image containing a central object or character, user can select one of the available models to generate a 3D mesh representation of the object or character in the uploaded image. Users can review results and download or iterate on outputs.

Feature information

Feature functionality	Augment
Model source	Open-source, Third Party Licensed
Primary technique	Transformer Diffusion

Trust ingredients

User directed feature	Yes
Personal data	No
Data source(s)	Mixed (e.g. Open-source, Third-party trained)
Choice format	N/A
Encryption at-rest	Yes
Encryption in-transit	Yes
Other safeguards	N/A
