

AI Transparency Card

Forma

AI Location Areas

Beta

What this AI does

AI-assisted generation of Location Areas from 2D Sheets. The solution detects rooms in floor plans, generates polygons representing location areas, and allows users to review, edit, split, merge, and assign the generated areas before saving them.

Data handling

Training data

Data types	Drawings, Geometry (common elements)
Data sources	Customer content
Personal data	Not used

Customer choice

Feature classification	Standard
Choice format	Always on

Trust & safeguards

Human oversight	Yes
Built-in safeguards	Encryption
Known limitations	Results may vary based on inputs, Not for safety-critical use

Additional transparency

Model provider	Autodesk, Third-Party
Primary technique	Computer Vision
