Bid Proposal Agent

Beta

What this AI does

Reads subcontractor proposals a general contractor has received and pulls the pricing and scope terms into structured data for comparison. The estimator reviews every value against the source document and confirms before anything is saved.

Data handling

Training data

Data types	N/A (third-party model) (common elements)
Data sources	N/A (third-party model)
Personal data	N/A (third-party model)

Customer choice

Feature classification	Standard
Choice format	Always on

Trust & safeguards

Human oversight	Yes
Built-in safeguards	Encryption
Known limitations	May produce inconsistent results, Results may vary based on inputs, Not for safety-critical use

Additional transparency

Model provider	Third-party
Primary technique	Classification
