

# AI Transparency Card

---

## Forma, Forma Data Management AI Rendering

---

### Description

Generates architectural visualizations from Files in Forma Data Management, with rendering style specified through prompts (e.g. photorealistic, watercolor). Users capture a design view and receive a render-like image in seconds. Users can review results, iterate with different styles, or download directly in Forma Board.

---

### Feature information

---

Feature functionality	<b>Augment</b>
Model source	<b>Third Party Licensed</b>
Primary technique	<b>Transformer Diffusion</b>

---

### Trust ingredients

User directed feature	<b>Yes</b>
Personal data	<b>No</b>
Data source(s)	<b>N/A</b>
Choice format	<b>No</b>
Encryption at-rest	<b>Yes</b>
Encryption in-transit	<b>Yes</b>
Other safeguards	<b>N/A</b>
