

AI Transparency Card

Forma Site Design

Building Layout Explorer (Experimental)

Description

Building Layout Explorer in Forma Site Design uses generative AI to create building spatial layouts from input building geometry, building type, and primary structural material.

Feature information

Feature functionality	Augment
Model source	Proprietary
Primary technique	Transformer

Trust ingredients

User directed feature	Yes
Personal data	No
Data source(s)	Synthetic data, Customer content e.g., (BIM geometry, project type labels)
Choice format	Turn Off
Encryption at-rest	Yes
Encryption in-transit	Yes
Other safeguards	Anonymization, De-identification, Tokenization
