

AI Transparency Card

Forma Site Design

Building Layout Explorer

Beta

What this AI does

Building Layout Explorer in Forma Site Design uses generative AI to create building spatial layouts from input building geometry, building type, and primary structural material.

Data handling

Training data

Data types	Geometry (common elements)
Data sources	Synthetic data, Customer content
Personal data	Not used

Customer choice

Feature classification	Advanced
Choice format	Turn off

Trust & safeguards

Human oversight	Yes
Built-in safeguards	Encryption, Tokenization
Known limitations	Results may vary based on inputs, Not for safety-critical use

Additional transparency

Model provider	Autodesk
Primary technique	Transformer
