Automated CAM Programming

Beta

What this AI does

The AI CAM programming option automatically provides suggestions on how best to machine a component and allows the system to apply the appropriate toolpath strategies and tool selection into your document

Data handling

Training data

Data types	Geometry (common elements)
Data sources	Synthetic data
Personal data	Not used

Customer choice

Feature classification	Standard
Choice format	Always on

Trust & safeguards

Human oversight	Yes
Built-in safeguards	On-device processing
Known limitations	Results may vary based on inputs

Additional transparency

Model provider	Autodesk
Primary technique	Encoding
