

AI Transparency Card

Fusion

Find Similar

What this AI does

This feature helps users rapidly find and re-use existing duplicate, or similar designs in their hub, using 3D geometry as the search query. Users can only see results for designs that they have permission to access.

Data handling

Training data

Data types	Geometry (common elements)
Data sources	Customer content
Personal data	Not used

Customer choice

Feature classification	Standard
Choice format	Always on

Trust & safeguards

Human oversight	Yes
Built-in safeguards	De-identification
Known limitations	Results may vary based on inputs, Not for safety-critical use

Additional transparency

Model provider	Autodesk
Primary technique	Encoding
