

# AI Transparency Card

---

## Fusion

Find Similar (Beta)

---

## Description

This feature helps users rapidly find and re-use existing duplicate, or similar designs in their hub, using 3D geometry as the search query. Users can only see results for designs that they have permission to access.

---

## Feature information

---

|                       |                    |
|-----------------------|--------------------|
| Feature functionality | <b>Automate</b>    |
| Model source          | <b>Proprietary</b> |
| Primary technique     | <b>Encoding</b>    |

---

## Trust ingredients

|                       |   |
|-----------------------|---|
