AUTODESK° FUSION 360°

Single user install process and browser access to Fusion 360

As of August 2021, there are two paths that students may take to get an account with educational access to Autodesk products including Fusion 360. The first path, option 1, is also available to educators and design competition mentors in addition to students.

Option 1

Individual Access

A student, educator, or design competition mentor may create an account and individually confirm their eligibility to access the Autodesk Education plan. This plan provides free, educational access to Autodesk products for eligible individuals. Products can be accessed this way at <u>www.autodesk.com/eligibility</u>.

Option 2

Access via an Educator

A student may create an account after getting assigned to use one or more Autodesk products by their educator. This will provide students with access to Autodesk products at <u>manage.autodesk.com/cep/</u>. These students will not have to individually confirm their eligibility for educational access to Autodesk products.

Students may use both option 1 and option 2 at the same time. This document will walk you through how these options work.

Single user install process and browser access to Fusion 360

Option 1: Individual Access

A student, educator, or design competition mentor may create an account and individually confirm their eligibility to access the Autodesk Education plan. This plan provides free, educational access to Autodesk products for eligible individuals.

OTE: If your uploaded document is too fuzzy to read, does not show your fuil and legal name, or shows name different from the one you used for this Audoets Account, you will not be able to complete the infimization process. These do not include any condented literation in the document you upload, ch as accuts accurity numbers or banking details. Please ensure any sensitive information is blacked to before you upload your document.		photo not required
SUBMIT Cancel		

d. If you reach a page with the heading "Additional documentation needed" you will need to upload at least one document confirming your enrollment or employment status with an eligible educational institution. To improve your chances of approval, please provide more than one document. For example, students can upload a student ID card and a class schedule. Educators can upload an employee ID card and an official employment letter from their educational institution.

The following letter templates can be downloaded and used to create documentation on school letterhead:

- <u>Student template</u>
- <u>Faculty template</u>

Once your documentation has been uploaded, click Submit. It may take up to 48 hours for your educational eligibility status to be determined by SheerID.

e. If SheerID approves your educational eligibility, you will receive a confirmation email.

If you do not receive a confirmation email and would like to follow up with SheerID, please contact them at <u>customerservice@sheerid.com</u>.

Single user install process and browser access to Fusion 360

Hello Todd, welcome to Fusion 360!

In Fusion 360, everything happens inside a team. A team is a collaborative environment where you can store design data and work on your own or with collaborators.

Whether you are the only member of your team or collaborating, you are always in control of your data and can define who can access it.

Additional steps for new Fusion 360 users

a. If you are a new Fusion 360 user, the first time you sign in to Fusion 360 you will be asked for a Team Name. Enter a name for your team site. This could be your name.

This is where your data will be stored and where products will be created or moved to.

Click Next.

b. To create a team, enter a name for your team site.

For more information, visit the Autodesk Knowledge Network article titled <u>Getting Started</u> with Fusion Team for Education.

÷	Create a Team
	You will be the team administrator and control all data. You can always invite others to the team to collaborate.
-	want to join a corporate team, sign in with your corporate email address or contact your
-	want to join a corporate team, sign in with your corporate email address or contact your istrator.
-	
dmin	istrator.

Single user install process and browser access to Fusion 360

ema	can make your team automatically discoverable by other people from autodesk.com. Anyone with an ill address from autodesk.com (for instance john.smith@autodesk.com) will be able to discover your n and join without needing prior approval.
	coption is helpful for organizations who want their employees to join existing teams instead of ting their own. You can always change this preference in <u>Fusion Team preferences</u> .
0	Do not allow discovery
	Do not allow other people from autodesk.com to discover your team. You will need to invite each team member manually.
	Allow discovery and automatic join
	Make your team discoverable and allow people from autodesk.com to join automatically.

c. Check or uncheck the "Do not allow discovery" option and click Create.

d. Your Fusion Team is ready to use.

Single user install process and browser access to Fusion 360

Option 2: Access via an Educator

A student may create an account after getting assigned to use one or more Autodesk products by their educator. These students will not have to individually confirm their eligibility for educational access to Autodesk products.

Click here to view this email in your web browser.	1	Create an account
Autodesk. Make anything Good news: You've got access	a.	You may get an email from Autodesk that your Autodesk Account is waiting.
Hello Jane, Your administrator, Scott Johnson, has given you access to: • Fusion 360 SIGN IN TO GET STARTED >		This email is sent to students who have been assigned to use an Autodesk product by their educator but do not yet have an Autodesk Account associated with the email address used by their educator for the assignment.
