

AI Transparency Card

Recap Pro

AI Pre-Classify

Beta

What this AI does

The solution automates the classification of mesh segments into a predefined list of categories and produces classified outputs that support downstream BIM and collaboration workflows, including modeling, analysis, inspection, and renovation planning.

Data handling

Training data

Data types	Geometry, Image, Text, Prompts (common elements)
Data sources	Customer content
Personal data	Not used

Customer choice

Feature classification	Standard
Choice format	Turn off

Trust & safeguards

Human oversight	Yes
Built-in safeguards	Encryption, De-identification
Known limitations	Results may vary based on inputs, May produce inconsistent results, Not for safety-critical use

Additional transparency

Model provider	Autodesk, Third-party
Primary technique	Classification
