

AI Transparency Card

Revit

Optimize Annotations

Beta

What this AI does

An AI-assisted feature that intelligently repositions the placement of existing tags within floor plans. This is currently available only in the Revit Preview Release for testing.

Data handling

Training data

Data types	Drawings (common elements)
Data sources	Customer content
Personal data	Not used

Customer choice

Feature classification	Standard
Choice format	Always on

Trust & safeguards

Human oversight	Yes
Built-in safeguards	Tokenization, De-identification
Known limitations	Results may vary based on inputs, May produce inconsistent results, Not for safety-critical use

Additional transparency

Model provider	Autodesk
Primary technique	Transformer
