

# Theory of Change

## Health & Resilience

This Theory of Change illustrates how our investments generate measurable outcomes for a more sustainable, inclusive, and resilient world.

# For a better world

By introducing climate adaptation technologies and strengthening infrastructure in under-resourced communities, we aim to increase access to essential services and build more **resilient social, economic, and environmental systems.**

### We invest

Financial capital, Autodesk technology, expertise, impact analysis, networks, and storytelling in a **portfolio of innovations building community resilience** by:

**Managing rising levels of physical climate risk**

**Reducing vulnerability in the face of climate shocks and stresses**

**Shifting systems to address root causes of climate impacts**

### To deliver measurable outcomes that

**Improve community health, safety, and well-being**

# of individuals who gained energy access  
# of individuals with improved healthcare access

**Protect and regenerate natural resources**

# CO<sub>2</sub>e reduced or avoided  
# hectares of land protected

**Advance inclusive economic growth**

Median annual income (\$) increased  
# individuals placed in new or improved jobs
